

**Patent Claims**

1. Compositions which contain the compound of the general formula (I)

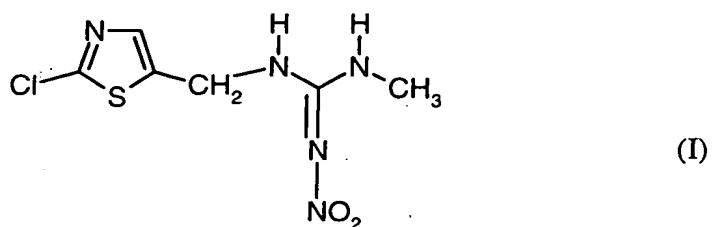

- 5 in a mixture with fungicidal active compounds, except for cyclopropyl-carboxamide derivatives and azolymethylcycloalkanes.
- 10 2. Compositions according to Claim 1, characterized in that the active compound combinations contain from 0.1 to 10 parts by weight of at least one fungicidal active compound per part by weight of active compound of the formula (I).
- 15 3. Process for controlling fungi and insects, characterized in that active compound combinations according to Claim 1 are allowed to act on the fungi, insects and/or their habitat.
4. Use of active compound combinations according to Claim 1 for controlling fungi and insects.
- 20 5. Process for preparing compositions according to Claim 1, characterized in that active compound combinations according to Claim 1 are mixed with extenders and/or surfactants.

Compositions for controlling plant pests

Abstract

The present invention relates to compositions for controlling plant pests, which contain the compound of the formula (I)

in a mixture with fungicidally active compounds, except for cyclopropylcarboxamide derivatives and azolymethylcycloalkanes.
